

## HIKON PP, PE RECYCLING AND WASHING LINE

Belt Conveyor

Screw Conveyors from Granulator to Washing

Water Dewatering system and Drying

Hikon Automatic Grinding washing and drying lines are developed to meet the challenges faced in plastic recycling industry. Hikon own designed lines are suitable for PE and PE films as well as article waste.

### Salient Features:

1. Fully Automatic Process from scrap grinding till material drying and storage.
2. Can Recycle both film and article waste.
3. Fully Synchronized with electric panel.
4. Minimum labour required in comparison to the manual process.
5. Low electrical consumption.
6. Consistent Output lines ranging from 250 kg/hr to 500 kg/hr.
7. All Parts in contact with water made of stainless steel.
8. Smooth and convenient operation.
9. Less wastage.
